

### **New, Used, Refurbished Hardware**

At Alta Technologies our priority is to provide tailored solutions for each customer's specific needs. We buy, sell, trade, and lease Cisco, Dell, HP, IBM pSeries, xSeries, Tape Systems and Total Storage within the global marketplace.

Whether you are looking to upgrade or replace components, refresh your data center, upgrade your networking equipment, or find fully configured servers Alta is the answer. Our professional staff of technicians tests each product in our on-site data center before it hits our shelves.

### **Expansive Product Selection and Service**

Our 25,000 square foot warehouse is stocked with fully configured machines, motherboards, memory, drives, cards, racks, power supplies, and various other components. By doing our testing in-house we are able to control quality and increase reliability and performance. We do all of these things in an effort to provide you with the products and customer service you expect from us and we demand from ourselves.

We deliver results on time, with integrity, and sensitive to your budget. We provide consistent, dependable and professional service and hold ourselves to this highest ethical standards. If you are looking to buy, seeking assistance in asset disposition and secure recycling, looking for an equipment lease or a trade in, [Contact us](#) . We offer the ultimate value.
